# Contents

29 Ahokas, H.: Variation of kernel protein and lysine in the wild progenitor of barley

255 Annerén, G.: Increased frequency of tetraploidy in cultured skin fibroblasts from extremities with reduction malformations

13 Árnason, E.: An experimental study of neutrality at the malic dehydrogenase and esterase-5 loci in *Drosophila pseudoobscura*

261 Beckman, L., Nordenson, I. and Nordström, S.: Occupational and environmental risks in and around a smelter in northern Sweden. VIII. Three-year follow-up of chromosomal aberrations in workers exposed to lead

105 Bredberg, A., Iselius, L., Lindgren, L. and Lundmark, K.-M.: Duplication of part of the long arm of chromosome 8 due to a familial 8;13 translocation

77 Clapham, D. H.: Immunocytochemistry of nuclease I of *Tradescantia*

211 Flagstad, A.: A new hereditary neuromuscular disease in the dog breed "Gammel Dansk Honsehund". Genetic investigations

1 Gustafsson, Å., Dormling, I. and Ekman, G.: Barley and wheat under controlled climatic conditions: A model experiment of vigour and variability

215 Haapala, O. and Nokkala, S.: Structure of human metaphase chromosomes

307 Habib, Z.: Thalassaemia and haptoglobin polymorphism in Egypt

149 Habib, Z. and Böök, J. A.: Thalassaemia in the Egyptian population

183 Hansen, K. M.: Sequential Q- and C-band staining of pig chromosomes, and some comments on C-band polymorphism and C-band technique

85 Husum, B., Wulf, H. C. and Niebuhr, E.: Increased sister chromatid exchange frequency in lymphocytes in healthy cigarette smokers

119 Lie, T. and Laane, M. M.: Reconstruction analysis of synaptonemal complexes in haploid and diploid pachytene nuclei of *Physarum polycephalum* (Myxomycetes)

89 Juneja, E. K., Gahne, B., Kuryl, J. and Gasparska, J.: Genetic polymorphism of the vitamin D-binding protein and a pre-transferrin in chicken plasma

97 Lüning, K. G.: Genetics of inbred *Drosophila melanogaster*. IV. Tests of paternal non-disjunction, chromosome loss and X.Y exchange

101 Lüning, K. G.: Genetics of inbred *Drosophila melanogaster*. V. Genetic and cytoplasmic effects on primary non-disjunction and chromosome loss

161 Lüning, K. G.: Genetics of inbred *Drosophila melanogaster*. VI. Crossing-over in secondary non-disjunction exceptionals

287 Lüning, K. G.: Genetics of inbred *Drosophila melanogaster*. VII. Evidence of normal chromosome pairing in the distal ends of X-chromosomes in secondary non-disjunction

291 Lüning, K. G.: Genetics of inbred *Drosophila melanogaster*. VIII. The effects of inbreeding on recombination

39 Marinello, M. J. and Levan, A.: Ring-shaped double minutes in human acute myelocytic leukemia and in murine SEWA sarcoma. A comparison

141 Mark, J., Dahlenfors, R., Ekedahl, C. and Stenman, G.: Chromosomal patterns in a benign human neoplasm, the mixed salivary gland tumour

317 Markkanen, A., Heinonen, K., Knuutila, K. and de la Chapelle, A.: Methotrexate-induced increase in gap formation in human chromosome band 3p14

279 Mitelman, F., Strömbeck, B., Ursing, B., Nordle, Ö. and Hartley-Asp, B.: Metronidazole exhibits no clastogenic activity in a double-blind cross-over study on Crohn's patients

55 Mork, J., Reuterwall, C., Ryman, N and Ståhl, G.: Genetic variation in Atlantic cod (*Gadus morhua* L.): A quantitative estimate from a Norwegian coastal population

247 Muona, O.: A multilocus study of an experimental barley population
109 Nielsen, J., Brogaard Hansen, K., Sillesen, I. and Videbech, P.: Chromosome abnormalities in newborn children. Aetiological aspects
195 Nielsen, J., Krag-Olsen, B., Dirdal, M., Holm, V., Haahr, J., Rasmussen, N. H., Videbech, P. and Yanagisawa, S.: Chromosome abnormalities in children, in two Danish counties, born during the period 1967–1978. Clinical data
175 Nordenson, I. and Beckman, L.: Occupational and environmental risks in and around a smelter in northern Sweden. VII. Reanalysis and follow-up of chromosomal aberrations in workers exposed to arsenic
265 Nordenson, I., Nordström, S., Sweins, A. and Beckman, L.: Chromosomal aberrations in lead-exposed workers
63 Qaraéen, A. M.: Pseudo-compatibility in *Tradescantia paludosa*. II. X-ray treatment
321 Poulsen, M. H. and Nørgaard Knudsen, J. Chr.: Yellow senescence and incomplete testa mutants in Vicia faba L.
269 Rønne, M., Eldridge, F. E., Thust, R. and Andersen, O.: The effect of in vitro distamycin A exposure on metaphase chromosome structure
49 Ryman, N. and Chakraborty, R.: Evaluation of paternity-testing data from the joint distribution of paternity index and rate of exclusion
299 Simonsen, V.: Electrophoretic variation in large mammals. II. The red fox, *Vulpes vulpes*, the stoat, *Mustela erminea*, the weasel, *Mustela nivalis*, the pole cat, *Mustela putorius*, the pine marten, *Martes martes*, the beech marten, *Martes foina*, and the badger, *Meles meles*
69 Smyth, G. J. and Clapham, D. H.: Use of immunoprecipitates to obtain monospecific immunoglobulins to nuclease 1 of *Tradescantia*
313 Ståhl, G. and Ryman, N.: Simple mendelian inheritance at a locus coding for $\alpha$-glycerophosphate dehydrogenase in brown trout (*Salmo trutta*)
229 Tallberg, A.: Characterization of high-lysine barley genotypes
295 Thust, R. and Rønne, M.: Localization of SCEs and their possible relationship to dA.dT- or dG.dC-clusters, respectively, in Chinese hamster V 79-E chromosomes
191 Yazdani, R. and Rudin, D.: Inheritance of fluorescence esterase and $\beta$-galactosidase, in haploid and diploid tissues of *Pinus sylvestris* L.
